## Colour Analysis Training in a Box

### Everything you wanted to know about the package contents

#### Package contents at a glance...

##### DVD CONTENT

The two-day course that we filmed produced a total running time of approx. 8hrs 39 mins. A bit much to take in all at once, we thought! So, we've split this down into **10x DVDs** for you of approx. 50 minutes each.

##### CD CONTENT

There are also **10x Audio CDs**; the complete video soundtrack on audio CD so you can listen and learn in the car, away from home, or on holiday (if you really must!).

##### SUPPORT

Most training courses take your money, and then turf you out onto the streets with a box of drapes and no idea what to do with them. The first year of your business is the time when you will have the most questions and that's when I will be here to support you with **full back-up**.
