## Colour Consultant Wholesale Supplies

### Drapes, capes, wallets and fans used in the colour analysis training

#### Colour supplies as seen in the training course

As you work through the colour analysis training package '*Colour Analysis Training in a Box*' you will see in the video, in the training manual, and in other training resources lots of tools that you can use in your colour consultancy business, e.g. seasonal and tonal drape sets, seasonal and tonal fabric fans and wallets, cover-up capes, and a variety of other props.

#### Purchase supplies from our online wholesale catalogue

You can purchase any or all of these things from our colour & style consultant wholesale catalogue. These are not included in the cost of the training course because we don't run a franchise, and you may already have drapes, etc. from another company! As we don't try and sell you a garage full of colour analysis supplies as part of your training experience(!), you are free to choose where you purchase your supplies, but we can supply everything you need to get started if you prefer. (See below how to apply for access).

#### What if you already have drapes, etc. from another source?

Please note - you do not need to buy the exact drapes, wallets, etc. shown in the course material. This course will allow you to work with any good quality drapes and wallets that you may have already purchased. If you're happy with your current drapes, then why waste good money on new ones? If you're not sure how this is going to work out in practice, then [contact](#) me and I will do my best to help you.

#### Props to be proud of

I personally use the wallets, fans, drapes and capes we supply, and other items from our wholesale catalogue, and have done so for over 25 years. Our chosen manufacturer is based in the UK.

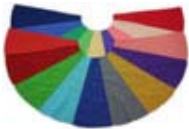

- We ship anywhere in the world
- Buy online using our secure payment system

Over the years, I have looked at a number of colour swatch wallets from a variety of companies. Most have been ok, a small number quite good, while some have been perfectly ghastly, but I have always been extremely happy with both the quality of the products and the excellent service that our current manufacturer provides, and I can recommend them with confidence for your own business.

We are always adding more photos and better descriptions for all the items listed, e.g. we now have full lists of the swatch contents of each of the wallets and fans. If you can't find what you're looking for, or you're not sure what something really is, then [contact](#) me and I will do my best to help you.
